

## EXOPELLET INOX 316L SERIES

Single wall flue pipes and gas evacuation pipes, laser welded in stainless steel AISI 316L.

### MATERIAL

- 0.4 mm AISI 316L stainless steel.
- Gloss finish.

### FEATURES

- **Corrosion test V2:** Product suitable for use with any type of solid, liquid, or gaseous fuel, having passed the condensation corrosion test.
- **Welding:** Continuous longitudinal laser on linear elements and circumferential laser welding on accessories.
- **Union system:** Male-female for tubes and accessories.
- **Temperature:** With seal: Up to 200°C.
- Without seal: Up to 600°C.

### CERTIFICATES CE

Certificate of conformity of factory production control, in compliance with the Construction Products regulation 305/2011 KIWA FPC.  
Product certified by KIWA in accordance with the standard **EN1856-2:2009**.

### APPLICATIONS

- Gas, diesel and non-condensing boilers.
- Solid fuel stoves, ovens.
- Commercial, industrial and sports facilities.
- Steam boilers.
- Hot air generators.
- Interior assembly.

### DESIGNATION

- T600-P1-W-V2-L50040-060

❖ DOP nº 2

### DIAMETERS

80 - 100
